

We protect critical assets, reduce downtime, and maintain your productivity using leading edge power quality and management products and engineered solutions.

Our significant technical expertise and experience will ensure you receive a power solution that is right the first time, saving you time and money.

To learn more about us, watch our corporate video.

### Overview

Established in 2002, we have emerged as a prominent player in Australia's power quality and management arena. We are renowned for our technical expertise, which spans across virtually every industry.

We thrive on tackling challenging projects, whatever the application and/or environment; whether it's designing, assembling, installing or maintaining complex power solutions on remote mining sites or overseeing critical power systems in large urban hospitals.

### Capabilities

We specialise in the design, assembly, installation, and maintenance of power quality and power management solutions. Our bespoke offerings encompass both AC & DC Power Systems, designed and tailor made to meet our customers' specific applications.

Our comprehensive product range is sourced from top-tier global manufacturers like Eaton, Vertiv, Schneider Electric, Powershield and ABB and include UPS, DC Power Systems, Generators and Power Conditioners.

We boast an in-house warehouse stocked with readily available off-the-shelf products.

We also have a workshop with inhouse testing facilities, repair services and the capability to assemble custom-made products.

### Our difference

- Powering critical Australian infrastructure since 2002
- UPS solution specialists
- Eaton's only authorized DC Integrator in Australia
- Substantial stock levels maintained
- Engineering team with an advanced technical proficiency
- All products undergo rigorous in-house testing to ensure they meet strict quality control and standards compliance
- Trusted provider to the Australian Department of Defence, one of just 45 companies in Australia to have been awarded Defence Export Control Accreditation (DCRN - a US Treaty from the Australian Department of Defence)
- We are a member of the Defence Industry Security Program (DISP) and possess a NATO Commercial and Government Entity Ranking (ZOKV8), underscoring our unwavering commitment to delivering the highest standards of quality and service.

### 24/7 nationwide support

With swift deployment capabilities and round the clock nationwide support, you can be sure that Power On will make sure your needs are met promptly and reliably.

### Services

#### Power Services

- Power Quality Site Audits
- Power Protection Needs Analysis
- Power Factor Correction Analysis

#### Consulting Services

- Technical Engineering & Design of bespoke Power Systems
- Product Specification Assistance

#### Recycling and Disposal Services

- Of Batteries & Hardware

#### Complete Solution Project Management

- Planning & Drafting
- Product Selection
- Installation
- Remote SNMP Configuring
- Testing – Load Bank, Witness, Site & Factory
- Commissioning

#### Equipment Maintenance

- One off services
- Repairs
- Preventative Maintenance Plans
- Battery Replacements

### Products

- Custom Power Solutions
- UPS & Accessories
- DC Power Systems
- Batteries
- Generators
- Surge Power Boards
- Surge Filters & Diverters
- Power Distribution Units
- Racks & Accessories
- Power Conditioners & Converters
- Transformers

### Insurances & Work Cover

- Public & Products Liability
- Professional indemnity
- Management Indemnity
- Business Insurance (including Disaster Recovery)
- Cyber Insurance
- Human Resources Insurance
- Marine Transit Insurance
- Motor Vehicle Insurance
- Work Cover
